

Rod,

It has been a very busy summer so far and I finally am able to shoot off a quick email. The flooring has been an absolute force multiplier for us! We have been able to expediently move cargo across the area of our operations to Units in need. I have attached one of my favorite pictures of us and the cargo we brought to a Unit at an airfield in Poland. Thank you for the work and time you put in. It was highly appreciated! Thank you sir!

Very respectfully,

Justin G. Winter
